

Magnetic Floor Sweeper

Series: FS

STANDARD FLOOR SWEEPER

Available in widths from: 12" to 48"

COLLAPISBLE HANDLE FLOOR SWEEPER

Available in widths from: 12" to 48"

Application: MPI STANDARD AND COLLAPISBLE HANDLE MAGNETIC FLOOR SWEEPERS are designed to collect tramp iron over smooth and uneven surfaces. The Collapsible Handle model is designed for reaching under machinery. Popular uses include the collecting of:

- Metal Turnings from floors in machine shops.
- Steel Stampings from around presses.
- Hazardous nails and sharp metal objects from driveways, walkways, and grounds of construction sites.

The permanent magnet is not affected by adverse weather conditions such as rain, cold or hot temperatures. The permanent magnet provides a powerful, continuous magnetic field. The all-welded, heavy-gauge stainless steel construction is designed for rugged indoor and outdoor environments.

FS SERIES SELECTION GUIDE

FS MODEL NUMBER	FLOOR SWEEPER WIDTH	
	IN.	CM.
FS-12	12.0	30.5
FS-18	18.0	45.7
FS-24	24.0	61.0
FS-36	36.0	91.4
FS-48	48.0	121.9

Optional Sizes available upon request.

Operation: Simply roll the sweeper over the ferrous metal to be collected. As the strong magnetic field passes over the metal it will be drawn to the magnetic surface at the bottom of the sweeper. To remove the collected metal from the sweeper's magnetic surface, simply lift the lever on the handle to separate the magnet from the collection pan surface, the metal will fall off into a pile that can easily be removed. For the Collapsible Handle model, simply loosen the

handle's star knob and set the handle angle to your meet you job's requirements, then tighten the star knob and continue as mentioned above.

Construction:

- Permanent Ceramic magnetic material
- All-welded heavy gauge stainless steel construction.
- Five standard sizes available.

-Custom Sizes & Configurations Available-
