

# Wall Magnets

Series: WM

Model Shown  
WM-12

Model Shown  
WM-10

Model Shown  
WM-25

**Application:** MPI's WALL MAGNETS (WM Series) are a decorative magnet assembly ideally suited for hanging charts, notes, or blueprints on office walls, desks, or file cabinets. These powerful magnets can also be used in shop areas to help organize jobs in process or hold product drawings on the manufacturing equipment. A metal mounting strip in three standard lengths is also available for areas lacking a non-ferrous surface.

**Construction:** Powerful Ceramic magnet material is encapsulated in a mild steel enclosure with high-impact epoxy to provide a durable assembly. A chrome plated knob is fastened to the assembly to permit easy handling. The optional mounting strips are constructed from 1/4" x 2" mild steel with #10 flat head countersunk holes on 16" centers for easy installation.

**Selection:** Three magnetic strengths are available from stock for immediate delivery. Standard color is blue with optional colors available.
