FIGHT INFLATION Inventory Sale

The MPI ElectroPermanent Mastermill Milling Chuck is a versatile magnetic chuck for milling and drilling of both small and large workpieces. Using pole extensions, the material can be machined from five (5) sides, drilled through, and uneven material can be machined as well.

ElectroPermanent Mastermill Milling Chuck						
MPI Part Number	Width	Length	Height	Poles	Weight	List Price
MM-50-420600-EP	16	24	2	48	190	\$10,375.00
MM-50-420800-EP	16	32	2	60	251	\$13,103.00

The control units for the electropermanent magnetic chucks are used to drive these by means of controlled electrical impulses. They allow you to magnetize and demagnetize the workpiece and chucks automatically. LCC units are designed for control of compensated electropermanent magnetic chucks.

ElectroPermanent Chuck Controls					
MPI Part Number	Width	Length	Height	Weight	List Price
EPMCC-LCC10	10	12	6	13	\$2,334.00
EPMCC-LCC20	10	12	6	13	\$2,962.00

ElectroPermanent Mastermill Milling Chuck	
MPI Part Number	Sale Price
MM-50-420600-EP-LCC10 Includes LCC10 Control	\$8,765.00
MM-50-420600-EP-LCC20 Includes LCC20 Control	\$9,235.00
MM-50-420800-EP-LCC10 Includes LLC10 Control	\$10,620.00
MM-50-420800-EP-LCC20 Includes LCC20 Control	\$11,090.00

Subject to prior sale. Pricing shown for in stock items only, no exceptions.
Pricing shown on stock items good from 7-1-2023 through 9-30-2023.
Contact your local distributor to order.
