Pneumatic Line Magnet

SPECIFICATIONS:

- > (PLM) Pneumatic Line Magnet designed for removal of fine metal contaminants in dilute-phase pneumatic conveying
- > (4) (Special, See below for details)
- > (REN) Powerful Rare Earth Neodymium-iron-boron magnet material (MAX Temperature: 175°F)
- > (QC) Quick Change design features removable magnet element for quick and easy removal of tramp metal
- > (304) Manufactured from 304 stainless steel
- > Latching: Quick release "DESTROY" clamps, Bolt on (Replaceable)
- > Gasket: FDA Registered Approved White Silicone "O-ring cord" compression gasket (38.0" ID)

"SPECIAL" FINISH SPECIFICATIONS:

- > Product Contact Areas: (See below for details)
- > Designed for a 4.0" schedule 10 pipe [4.5" (O.D.) X 11 GA (.120" wall)]

"SPECIAL" FINISH SPECIFICATIONS:

- >Product Contact Areas: [F3(%1)]
- >External Housing Seams: [F3X]
- >All Other: [F2X]

Magnetic Belt Feeder

SPECIFICATIONS:

- > (MBF) Magnetic Belt Feeder
- > (1248) 12" Diameter magnetic pulley X 48" wide
- > (REN) Powerful Rare Earth Neodymium-Iron-Boron magnet material
- > 48" (usable) belt width with stainless steel lacing 3/32" Thick with dual V-guides.
- > Approximate dimensions 60" wide X 48" tall and 78" long
- > Carbon steel slider bed.
- > Belting side brush feature to keep product on flat belt mounted to conveyor framing.
- > Heavy duty "C" channel carbon steel frame.
- > Adjustable take-up assembly.
- > Inspection / Clean out access panels to inspect & maintain the magnetic head pulley.
- > With "bolt-on" legs.
- > Motor drive package:
 - > 1 HP TEFC offset Drive Motor package
 - > 460 Volts, 60 HZ, 3 Phase AC
 - > Maximum developed Speed - 22 FPM

Magnetic Rotary Feeder

SPECIFICATIONS:

- > (MRF) Magnetic Rotary Feeder
- > (114) 10.0" diameter feeder drum with 14 rows of cups to maintain constant flow of product to processing equipment
- > (QC) Quick-Clean system
- > (EXP) Explosion-Resistant design
- > Product Inlet: 6" deep X 49.5" wide
- > Product Outlet: 6" deep X 49.5" wide
- > Magnet Type: 40 series ceramic
- > Dump Iron Collector Tray: Included
- > Roller Glide System: Included
- > Motor Package: XP Mount only
- > Suspension Blocks: Mounts blocks with through holes for suspension from above via (Customer provided) threaded rods
- > Construction: Carbon steel inlet included
- > Line Voltage: AB NEMA 9 Rated included
- > Zero Speed Switch: Mount only

Drum Separator with Housing

SPECIFICATIONS:

- > (DSH) Drum Separator in Housing
- > (1212) 12" diameter drum with a 12" wide rotating shell
- > (REN) Powerful rare earth neodymium-Iron-boron magnet material (Max temperature: 176F)
- > (S) Special (see below for details)
- > 220 degrees of stationary magnets ensure the highest rates of separation

SPECIAL:

- > Offset motor drive package including:
 - * On/off switch including an Emergency stop
 - * Input voltage: 480vac/3/60Hz
 - * 3/4 HP TEFC motor
 - * Gear reducer for 45 RPM constant speed
 - * Torque limiter
 - * OSHA compliant mounts and guards
 - * VFD drive included
 - * NEMA 12 enclosure

PRO-TECTOR WITH DMU

> DMU-208-QC-304 with the following features: Two tiers (3 over 4) of 1" diameter magnetic tubes mounted on 2" centers with an 8" square inlet/outlet

- (QC) Quick Clean design featuring nonmetallic strippers
- (304) Manufactured from 304 grade stainless steel
- UHMW stripper assemblies provide a 62% increase in magnetic strength over sleeve over tube design
- Powerful rare earth neodymium-iron-boron magnet material (Max temperature: 176F)
- FDA approved "O-ring cord" compression style gasket which offers a bullet-proof seal and virtually eliminates gasket replacement
- Exclusive lock and release latch mechanism prevents accidental cleaning of magnets in product flow
- Rare access panel for inspection and easy maintenance
- 9" tall housing

Sensor Head:

- Model Number GF 0150 Sensor head with the following features: Digital metal detector for gravity application
- Pipe diameter of 150mm (5.91 inches)
- Sensor head and installation frame manufactured from stainless steel
- FDA quality PVDF plastic down-pipe

Gravity Fed Metal Detector 150mm Dia.

SENSOR HEAD:

- > Model Number: GF 0150 (5.91" [150.0MM])
- > Type: Digital metal detector for gravity applications
- > Sensor Head Material: Stainless steel
- > Ingress Protection Rating: IP65
- > Down Pipe Material: FDA approved PVDF (Polyvinylidene difluoride)
- > Sensor Head Control Cable: 117.0" [3.0M]

CONTROLLER:

- > Model Number: SHARK-2A Digital Wall mounting controller
- > Ingress Protection Rating: IP65
- > Intuitive: Easy to use interface
- > Exclusive Design: Four-quadrant digital technology allows for a 360° freestyle
- > Teaching: Quick-Teach with graphic assist
- > Reporting: Auto reporting HACCP-SQF 2000-BRC-GMP-IFS5-FSSC 22000/PAS 220
- > PLC Capable: Input/ Output 8
- > Input Power Requirements: 115/230/60

REJECT:

- > Pneumatic reject device for automatically rejecting contaminated product
- > Design: For powder and bulk products
- > Material: Stainless steel

WELD-ON PIPE ENDS: For easy and simple connection of the GF metal detector into existing pipes

Gravity Fed Metal Detector (10.0")

SENSOR HEAD:

> Model Number: GF 0250 (10.0")

SPECIFICATIONS:

> Type: Digital metal detector for gravity applications
> Sensor Head and Mounting Frame Material: Stainless steel
> Design: Housing filled with epoxy for extra stability
> Description: Sensor head suitable for steam-hose cleaning
> Aperture Opening: Includes long-term sealing protection
> Maximum Pressure: 70bar / 1000PSI
> Ingress Protection Rating: IP69k
> Down Pipe Material: FDA approved PVDF
> Sensor Head Control Cable: Length: 195.0" [5.0M]

CONTROLLER:

> Model Number: SHARK-2A (W380) Hygienic Design Digital controller type "W" (Wall mount)
